About Me

I am a Registered Nurse with over 9 years of acute and critical care experience across Level I trauma and Magnet-designated hospitals, and I am currently pursuing my Master of Science in Nursing at Frontier Nursing University to become a Certified Nurse-Midwife. In addition to my clinical background, I serve as a birth and postpartum doula with a strong commitment to patient education, autonomy, and culturally responsive care. **I am seeking a preceptorship beginning in October 2026** to strengthen my clinical skills, contribute meaningfully to patient care, and continue developing as a compassionate, evidence-based midwifery provider.
